

CSE 326

Final Report

Website For Uni Hospital

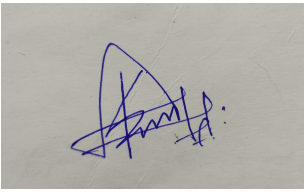

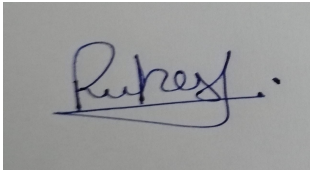

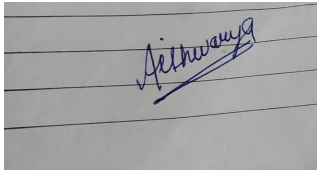

Sr. No.	Registration No	Name of Students	Roll No
1	11906677	Rahul Kumar	67
2	11917165	Satendra M Tiwari	70
3	11906688	K Rupeshwar Reddy	68
4	11917563	Aishwarya Bhardwaj	71

Lovely Professional University

Certificate

We, 1.Rahul Kumar, 2. Satendra Mani Tiwari, 3. Rupeshwar Reddy and 4. Aishwarya certify that the CSE 326 Project entitled “ **UNI HOSPITAL WEBSITE**” is done by us and it is an authentic work carried out by us at Lovely Professional University. The matter embodied in this project work has not been submitted earlier anywhere to the best of our knowledge and belief.

1.  2. 
3.  4. 

Date: 12th April 2020

Certified that the project entitled
“ **UNI HOSPITAL WEBSITE**” done by the above
mentioned students is completed under my guidance.

Signature of the Teacher

Mr Omar Farooq

Date: 12th April 2020

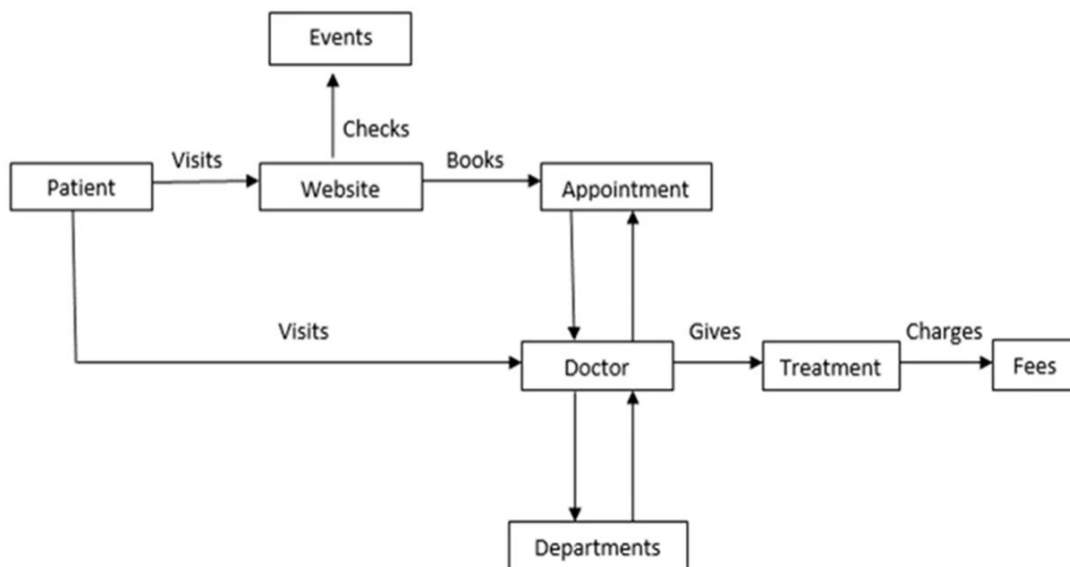

Introduction

This report is on the “Uni Hospital Website” project. In this website, we are giving detailed information about the hospital and its operations. The website is designed in an interactive manner and is able to give the users the knowledge of the expertise, experience and hospitality of the hospital. Through this website patients can go through the profiles of the doctors. Our website also helps to connect the common people with the hospital and they can now get to know each and everything about the hospital and can book appointments with doctors.

- In this website, we will be giving detailed information about the hospital and its departments.
- The website will consist of webpages giving information about the appointment availability, services provided by the hospital, latest updates and news of the hospital.
- The patients can go through the profiles of the doctors.
- This website also consists of hyperlinks such as rules and regulations, contact us and so on.

This Website helps in lowering manual work done by the patients to get appointments of doctors. They will be able to get appointments with a single click. It helps in keeping the patients updated about the availability of doctors. All information related to hospitals will be easily accessible to patients/visitors. It will be the centralized source of information.

Block Diagram

Technology Used

HTML: html will be used to structure the webpages

CSS: css will be used to style the pages and introduce features like responsive web page

JAVASCRIPT: javascript will be used to add functions to the page and make it dynamic

Contributions

NAME	RESPONSIBILITY
Rahul Kumar	HOME PAGE, APPOINTMENT AND NAVIGATION BAR DESIGNING, LINKING OF ALL PAGES
Satendra M Tiwari	EMERGENCY AND DOCTOR PROFILES PAGE DESIGNING
K Rupeshwar Reddy	DEPARTMENTS PAGE DESIGNING
Aishwarya Bhardwaj	CONTACT AND ABOUT US DESIGNING

Data Source

1. https://en.m.wikipedia.org/wiki/Apollo_Hospitals
2. <http://www.sevenhillshospital.com/>
3. <https://adeshhospital.com/>

From these sites we obtained details of doctors and different departments.

And from Google Images we got all images for our website.

And from <https://www.w3schools.com/> we took help for some tags, elements and color codes.

29 people have tested positive for Covid-19 in India. Here's what you can do to keep yourself safe

1. Wash hands frequently
Use soap and water for at least 20 seconds with soap and water or alcohol-based hand rub to kill viruses like the novel coronavirus.

2. Avoid crowded places
When someone coughs or sneezes, the virus may spread through the air. If you are in a crowd, you can breathe in the droplets, including the COVID-19 virus.

3. Avoid touching eyes, nose and mouth
Hands touch many surfaces and can pick up viruses. Once contaminated, hands can transfer the virus to your eyes, nose or mouth. From there, the virus can enter your body.

4. Practice respiratory hygiene
Respiratory spread virus. By following good respiratory hygiene, you protect the people around you from viruses.

5. Wear a mask if you have respiratory symptoms
Masks aren't required to be worn by all. Only those with respiratory symptoms (coughing or sneezing) need to use it to protect others from getting the virus. If you use a mask, make sure it is disposed of properly.

When you should start getting worried
Fever, cough, breathlessness, or more severe cases, infection can cause pneumonia or breathing difficulties. More worry. The situation can be bad.

What should you do if you have symptoms?
Stay home and isolate. Consider calling ahead to tell your healthcare provider if you have symptoms. If you have been in close contact with someone who has COVID-19, you should also isolate and wear a mask.

The mortality rate is 2-7% (SARS, MERS and Ebola virus) much more lethal

MORTALITY RATE
SARS 10-15%
MERS 35-60%
Ebola 50-90%

COVID-19
WATCH OUT FOR THESE SYMPTOMS
A little alertness can help you stay safe

Common Symptoms
Headache
Runny nose
Sore throat or Cough
Muscle pain
A general feeling of being unwell

Potential Complications
High fever
Trouble breathing
Pneumonia
Sepsis, even death in some cases

Coronaviruses usually cause mild to moderate upper-respiratory tract illnesses.

Symptoms may become between 2-14 days of exposure
