2	11917165	Satendra M Tiwari	70
3	11906688	K Rupeshwar Reddy	68
4	11917563	Aishwarya Bhardwaj	71

Submitted to Omar Farooq
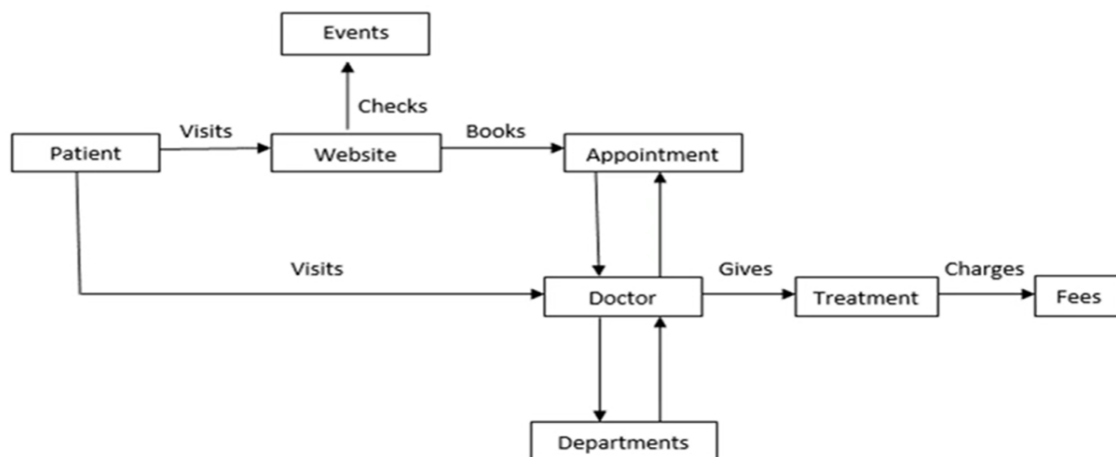

Lovely Professional University

Introduction

- Our project is a website for uni hospital.
- In this website, we will be giving detailed information about the hospital and its departments.
- The website will consist of webpages giving information about the appointment availability, services provided by the hospital, latest updates and news of the hospital.
- The patients can go through the profiles of the doctors.
- This website also consists of hyperlinks such as rules and regulations, contact us and so on.
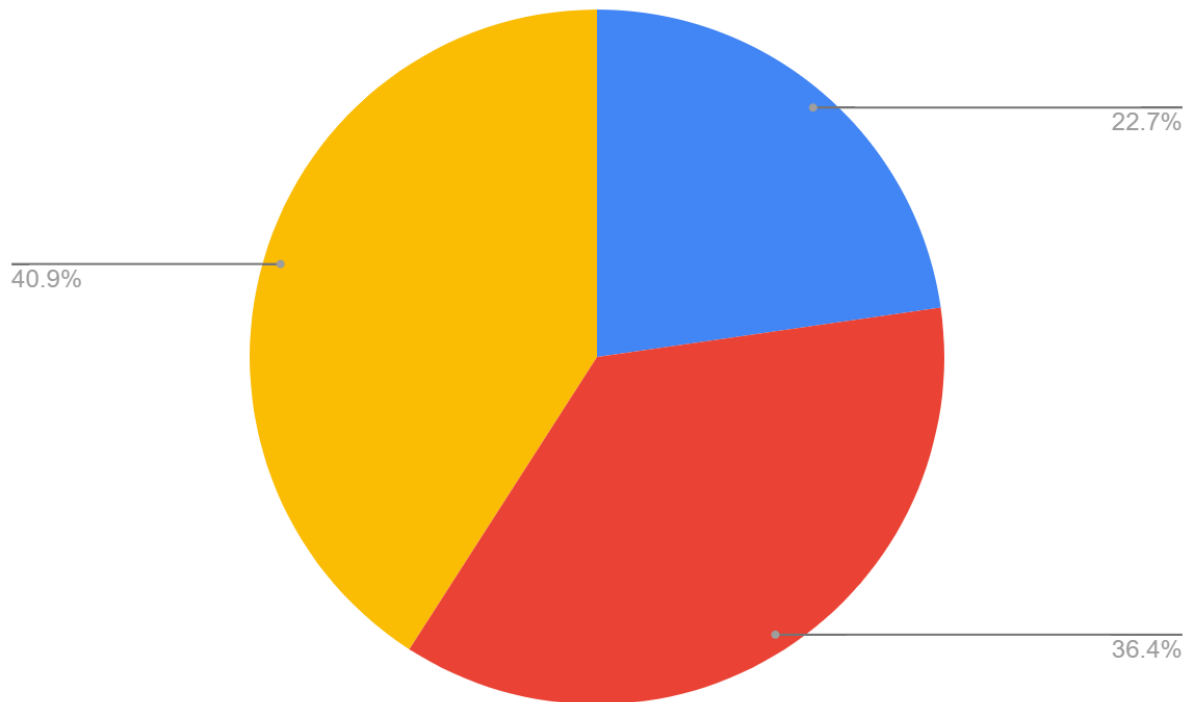

This Website helps in lowering manual work done by the patients to get appointments of doctors. They will be able to get appointments with a single click. It helps in keeping the patients updated about availability of doctors. All information related to hospitals will be easily accessible to patients/visitors. It will be the centralized source of information.

Block Diagram
